

Queensgate Primary School

Home Learning

Out: Tuesday 17th September 2019
Due Back: Monday 23rd September 2019

My Weekly Home Learning Tasks

Evidence suggests that at primary school level there are two things which make the greatest difference to your attainment linked to home learning:

1. Reading regularly with an adult and discussing what you have read
2. Regular times table practice

Reading is the one key skill that will make a difference in **your life**. You should be aiming to read your **library book** with your parents **every day**.

At Queensgate, we are trying to promote the idea of reading for pleasure. You are expected to read at least 3 times per week with an adult and this must be recorded in your planner.

Spelling Shed - login and go into Stage 3 and 4. This is where we should be. You can recap your Stage 1 and 2 spellings, too.

Spellings/Handwriting
You MUST learn this week's spellings. On Tuesdays, I will test you on these words by dictating sentences.

At the end of Year 4, In June 2020, you will take an online timed times tables check.

[Test Yourself here.](#)

TT Rockstars - You should be going on everyday (it doesn't need to be more than 3 mins!)

+ My Home Learning PLUS +

Maths

We have been working on Place Value (the value of a digit, depending on its position). Please complete the challenge task and stick it in your home learning book. Please put the date at the top.

You will all have new Spelling Shed passwords

Thank you
Year 3
Mr Berger-North

Frequently asked questions:

Do I complete home learning in pencil or pen?

Pencil please. When appropriate, use colouring pencil, too.

How long should home learning take?

Should not take more than one hour in total.

If you have any difficulties with home learning or if it seems to be taking rather a long time to complete, then you should stop. Your parents may want to put a note on the piece of work to say that you have done your best.

Learning theme
Place value

Represent 3 digit numbers in different ways

How many ways can we represent 138?

Base 10 dienes

Part whole model

Counters on place value grid

Words One hundred and thirty-eight

Magnificent misconceptions

Marvellous mistakes

Today's learning
To find 10 or 100 more/less than a given number

Add 10 to the following number. Then subtract from it.

263

Less than

More than

253

273
