

# Queensgate Primary School

## Home Learning

**Out:** Tuesday 1st October 2019  
**Due Back:** Monday 7th October 2019

## My Weekly Home Learning Tasks

Evidence suggests that at primary school level there are two things which make the greatest difference to your attainment linked to home learning:

1. Reading regularly with an adult and discussing what you have read
2. Regular times table practice

**Reading** is the one key skill that will make a difference in **your life**. You should be aiming to read your **library book** with your parents **every day**.

At Queensgate, we are trying to promote the idea of reading for pleasure. You are expected to read at least 3 times per week with an adult and this must be recorded in your planner.

## Spelling Shed

**Spelling Shed** - login and go into Stage 3 and 4. This is where we should be. You can recap your Stage 1 and 2 spellings, too.

**Spellings/Handwriting**  
**You MUST learn this week's spellings. On Tuesdays, I will test you on these words by dictating sentences.**

## TIMES TABLES ROCKSTARS

At the end of Year 4, In June 2020, you will take an online timed times tables check.

[Test Yourself here.](#)

**TT Rockstars** - You should be going on everyday (it doesn't need to be more than 3 mins!)

### Maths

#### Star Centre Challenge

Thank you  
Year 3  
Mr Berger-North

## **Frequently asked questions:**

### **Do I complete home learning in pencil or pen?**

Pencil please. When appropriate, use colouring pencil, too.

### **How long should home learning take?**

Should not take more than one hour in total.

If you have any difficulties with home learning or if it seems to be taking rather a long time to complete, then you should stop. Your parents may want to put a note on the piece of work to say that you have done your best.

Learning theme

Place value

Represent 3 digit numbers in different ways

How many ways can we represent 138?

Base 10 dienes

Part whole model
