

Queensgate Primary School

Home Learning

Out:	Tuesday 15th October 2019
Due Back:	Monday 28th October 2019

Weekly Tasks: Reading, Spellings, Times Tables

Evidence suggests that at primary school level there are two things which make the greatest difference to your attainment linked to home learning:

1. Reading regularly with an adult and discussing what you have read
2. Regular times table practice

Reading is the one key skill that will make a difference in your life. You should be aiming to read your library book with your parents every day.

At Queensgate, we are trying to promote the idea of reading for pleasure. You are expected to read at least 3 times per week with an adult and this must be recorded in your planner.

Spelling Shed

Login and go into Stage 3 and 4. This is where we should be. You can recap your Stage 1 and 2 spellings, too.

Spellings/Handwriting

You MUST learn this week's spellings. On Tuesdays, I will test you on these words by dictating sentences.

At the end of Year 4, In June 2020, you will take an online timed times tables check.

[Test Yourself here.](#)

TT Rockstars - You should be going on everyday (it doesn't need to be more than 3 mins!)

+ My Home Learning PLUS +

Half term home learning

Complete your topic learning postcard

Eat something you've not tried before

Light a candle

Tell your class about your favourite character from a book

Thank you
Year 3 and have a lovely half term break!
Mr Berger-North

Frequently asked questions:

Do I complete home learning in pencil or pen?

Pencil please. When appropriate, use colouring pencils, too.

How long should home learning take?

Should not take more than one hour in total.

If you have any difficulties with home learning or if it seems to be taking rather a long time to complete, then you should stop. Your parents may want to put a note on the piece of work to say that you have done your best.

The whiteboard is titled "Maths Working" and contains the following content:

- Learning theme:** Place value
- Today's learning:** To find 10 or 100 more/less than a given number
- How many ways can we represent 138?**
 - Base 10 dienes: 100, 30, 8
 - Part-whole model: 138 (circled) with arrows pointing to 100, 30, and 8
 - Counters on place value grid: H (100), T (30), O (8)
- Words:** One hundred and thirty-eight
- Magnificent misconceptions:** (Empty box)
- Marvellous mistakes:** (Empty box)
- Additional examples:**
 - 263 with counters: 200, 60, 3
 - Less than: H T O grid with 2, 5, 3
 - More than: H T O grid with 2, 7, 3
