

Queensgate Primary School

Home Learning

Below you will find the areas to focus on with your child this week. The children will have already been taught the sounds, tricky words and numbers below so this is an opportunity for them to consolidate their learning. Please also remember to read regularly with your child at home and access the suggested websites for more activities for you to do at home.

Sounds of the week

Mrs Aitken's
Group

Miss Sutherland's
Group

Miss White /
Mrs Heath's Group

ow (cow)

ee (tree)

n (net)

ow (blow)

igh (night)

m (mat)

Can your child think of any words that have these sounds in? Can they write a list of the words containing these sounds or write some sentences with these sounds in?

Each week your child will be set a challenge on Spelling Shed linked to our Sounds of the Week. Please encourage them to log on each week to complete their task.

Tricky words

you

they

Can your child read and write these tricky words? Can they tell you what is tricky about the word? Can they say a sentence containing one or more of these tricky words? Perhaps they could write a sentence with these tricky words in? Can they spot the tricky words in books, stories online or in print in the environment?

Number of the week

15 fifteen

Can your child identify this number? Can they count out the correct number of objects? Can they count on/back from this number? Can they tell you one more/one less or ten more/ten less? Can they find this number in the environment? How many different ways can they add together 2, 3 or 4 numbers to total this amount? Can they make this amount using coins? Can they share 15 into 3 equal groups?

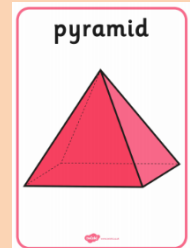

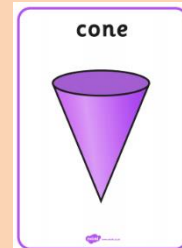

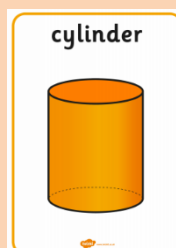

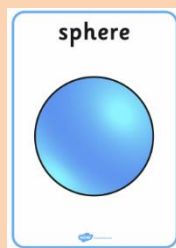

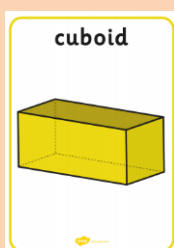

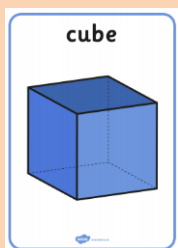

ILD task

This week our area of learning is...

Shape, Space and Measure

This week the challenge is to name and identify 3D shapes such as cubes, cuboids, spheres, cylinders, cones and pyramids that you can find around your home. I have uploaded a PowerPoint to share with the children to remind them of some of different 3D shapes and there is also a 'Naming 3D Shapes: Home Learning Challenge' sheet to give you some fun ideas to try at home.

Please take a picture / video of your child completing the task above and upload it onto the ILD. It would be great if you could please write a comment explaining what they were able to do and / or comments that they said during the activity.

Tales Toolkit

Character

Setting

Problem

Solution

I am really enjoying reading your Tales Toolkit stories on the ILD. This week, I have chosen a setting for your story. Can you write your own story set in a forest? What characters might live in the forest? Remember to use your High Five when writing.

I have saved the same 3 different writing frames on this week's blog for you to print off and use at home depending on how much your child would like to write. Don't worry if you don't have a printer, the children often create their own writing frames by drawing the symbols on a blank piece of paper. Please upload a photo of your child's story onto the ILD.

Hello from Chester and Ben!

This week Chester and Ben have been making the most of the sunshine and have spent lots of time playing outside. It was a bit windy but they enjoyed being outside and didn't get too cold.

Useful Websites

Just click on the images below to take you to the following websites

Fun Maths activities to try at home accompanied by explanatory videos.

A range of online activities and games to try at home. Children's log in details can be found in the back of their reading records.

A range of reading and writing activities to try at home. Children's log in details can be found in the back of their reading records.

A fantastic range of resources to support all areas of learning and they are currently free. PowerPoints can be downloaded and many resources can be printed for use at home.

Free eBooks for your child to read at home.

Fun, interactive, online phonics games to help your child review the sounds and tricky words that they have learnt. This is also currently free.

A variety of online activities and games for all age groups.

A collection of fun activities / ideas to do at home to give you some inspiration if needed!

A fun, interactive phonics game! The children create their own monster who they then teach to read whilst adventuring around a magical world. The game is free on a computer and there is an app available to purchase.
