

'Raise a SMILE with a Rainbow'

Your challenge: To design and make a usable item for someone who is staying safe at home.

Your product must:

1. **feature a rainbow** – you must have at least one rainbow included in your design.
2. **raise a smile** – your product should make the user feel happy when they use it or look at it.
3. **be used at home** – your product must be able to be used inside a house or in a garden.

PLAN

- What **product** am I going to make?
- Who will be the **product user**?
- What is the **purpose** of making the product?
-

PRODUCT DESIGN

Can you draw a labelled image to show what your product will look like?

WHAT WILL I NEED?

You should write a list of all the equipment you will need to create your product.
