

Queensgate Primary School

Home Learning

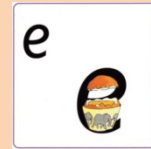

Below you will find the areas to focus on with your child this week. The children will have already been taught the sounds and numbers below so this is an opportunity for them to consolidate and apply their learning. However they have a new tricky word to learn 'he'. Please remember to read regularly with your child at home and access the suggested websites for more activities for you to do at home.

Sounds of the week

E e (egg)

U u (umbrella)

To complete the /e/n and /u/ sounds, this week, Can your child spot any of these sounds in books or print? Where does the 'e' or 'u' grapheme appear in a word? Can your child use these sounds in blending and segmenting activities? Have a go at writing these sounds. The rhyme for 'e' is 'lift off the top and scoop out the egg' and 'u' is 'down and under, up to the top and draw the puddle'.

Tricky word

he

We have covered all the tricky words on our Phase 2 tricky word train, so this week is learning a new tricky word from Phase 3. Can your child read this tricky word from our Tricky Word Train Can your child recognise this word on sight? Can they tell you what is tricky about this tricky word? Can they spot this tricky word in books, stories online or in print in the environment? Maybe you could make or print some flashcards with this tricky word on, or make your own tricky word train (or tricky word tree or other!) to display at home.

Number of the week

8 eight

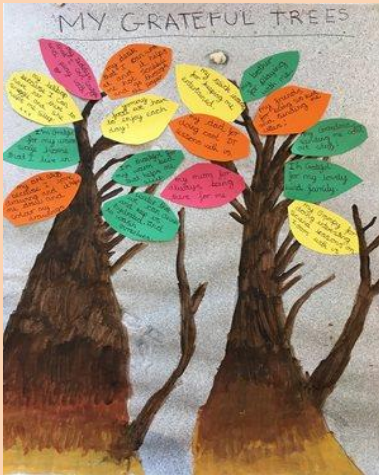

Can your child identify this number? What can they tell you about eight? Can they find this number in the environment? What happens when we add or subtract eight to/from a number? What if you had 10 objects for example, and took 8 away?

White Rose Maths provide some excellent, free resources for Early Years, all focussed around learning through play. We would love to see pictures of any of the activities you manage to complete.

ILD task

This week our area of learning is...
Personal, Social and Emotional Development

This week's task is to make a Gratitude Tree. This is great for thinking about positivity and what makes you feel happy, whilst developing fine motor skills at the same time using scissors. You can be as creative as you like making your Gratitude Tree. Use any piece of card to create your tree outline that you can then collage and make, and then cut out leaves to add to your tree each day. Draw a picture on a leaf or ask a grown up to write one thing that you feel proud of, grateful for, something or someone that makes you feel happy or maybe something you've achieved.

Please take a picture of your child completing the task above and upload it onto the ILD. It would be great if you could write a comment explaining what they were able to do and note down any comments that they said during the activity.

Useful Websites

Just click on the images below to take you to the following websites...

A fantastic range of resources to support all areas of learning and they are currently free. PowerPoints can be downloaded and many resources can be printed for use at home.

Free eBooks for your child to read at home.

A variety of online activities and games for all age groups.

PhonicsPlay has a new, updated website. All of the characters and games are the same and it is still free but the set up is slightly different.

A fun, interactive phonics game! The children create their own monster who they then teach to read whilst adventuring around a magical world. The game is free on a computer and there is an app available to purchase.

A collection of fun activities / ideas to do at home to give you some inspiration if needed!

Free, decodable comics linked to the phonics phases as an alternative to reading books online.

If you are on Instagram or Facebook the Play Hooray account does a live play-a-long every weekday at 10am for children aged 1 - 5 and has lots of ideas to get you playing with things you can find around the house!
